SkLO Care Instructions – Glass

GLASS

SkLO handblown glass should be cleaned only with a soft, lint-free, or microfiber cloth using lukewarm water and a small amount of mild liquid dishwashing detergent, followed by a rinse with clean lukewarm water. Dry with a lint-free or microfiber cloth to prevent spots.
Wash only with lukewarm water – never expose handblown glass to extreme temperatures, either hot or cold.

Do not wash the handblown glass in the dishwasher.

Dust with a soft, dry cloth as needed. Canned air can be used to remove dust from unreachable areas.

MIRRORED GLASS

There are two different techniques used to produce a mirror effect on SkLO mirrored glass products, and each technique has different requirements for its care needs. The two techniques have been grouped here by product – please find your appropriate product name below to determine the correct technique and corresponding care instructions

MIRROR PLATED GLASS

Light & Object products:

Reflect pendant
Wrap light (silver)
Wrap pendant (silver)
Wrap Pin 1.09 & 1.21 pendant (silver)
Large Wrap object (silver)
Seam vessel

Fingerprints or other marks and contaminants must be cleaned immediately to prevent the risk of damage to the mirror finish. Chemicals, cleaners, and abrasives will damage or remove the finish. Do not immerse in water. Clean only with a soft, lint-free, or microfiber cloth – use lukewarm water and a small amount of mild liquid dishwashing detergent only if necessary. Dry immediately with a lint-free or microfiber towel to prevent spots. Wash only with lukewarm water – never expose handblown glass to extreme temperatures, either hot or cold.

Do not wash in the dishwasher.

TRADITIONALLY MIRRORED GLASS

Object products:

Echo vessel

These SkLO handblown glass pieces have been mirrored using the traditional mirroring techniques which involve the application of liquid mirroring solutions to the interior of the glass form (The mirroring solution does not contain mercury). A protective lacquer is layered over the extremely delicate mirror, but the mirrored area is still extremely fragile, and should not be touched or wiped or cleaned.

Cleaning of the outside of the glass can be accomplished by following the general care instructions for glass, but great care must be taken to avoid touching the inside mirrored surfaces with bare hands, or scrub them, or clean the mirrored surfaces with any sort of liquid or cleaner of any kind.

Do not immerse in water.

SkLO Care Instructions – Metal

DARK OXIDIZED STEEL

Object & Light products:

Object table stands, wall hooks, and sculpture armatures

Lasso 48/60/72 Chandeliers

Dust with a soft, dry cloth. Wash only with a clean, damp cloth, and dry with a lint-free cloth. Do not immerse in water.

POLISHED NICKEL & BRUSHED NICKEL PLATED STEEL & BRASS

Clean only with a soft, lint-free cloth. Do not use chemicals, cleaners, or abrasives.

DARK OXIDIZED BRASS

Light products:

All Light products

All SkLO dark oxidized solid brass light fixtures have a hand-applied wax finish. To maintain and preserve the patina, clean only by wiping with a lint-free, dry cloth.

BRUSHED BRASS

Object & Light products:

Object table stands & wall hooks

All Light products

Our brushed brass finish is a “living” finish. The wax is not polished or lacquered. Our brushed brass metal finish has a hand-applied wax finish. Over time, the brass is intended to darken naturally. Clean with a soft, lint-free cloth. Do not use cleaners or abrasives.

SkLO Care Instructions – Stone

MARBLE

Light & Furniture products:

Rest Pendants

Join Tables

Dust with a soft, dry cloth as needed. Do not use abrasive or acidic cleaners. Acids will cause etching of the marble surface - clean any acidic liquid spills from the marble surface immediately with a soft cloth and water and a mild soap, such as dish soap, if necessary.
