VESSEL

Clockwise from center: Round Steel Blue Frosted, Tall Strawberry Frosted, Round Smoke Frosted

SkLO Dew Vessels are substantial, visually complex pieces that evoke the molten nature of handblown glass. They start as simply shaped vessels of transparent colored glass which are then layered with dripping pieces of molten clear glass. The outside is then given a frosted finish. The tops are then cut and polished to reveal the unique details of the layers. Bottoms are cut and polished. No two are exactly alike.

Two shapes, three glass colors

All glass dimensions are approximate – handblown glass dimensions vary by nature and intent
