

Caboche Plus Wall

Patricia Urquiola, Eliana Gerotto
2005

A design gem set in architecture: a warm and bright heart, enveloped by sparkling transparent beads. New arches, a new "twist lock" attachment system and new spheres, that appear to float in space once mounted, create a truly beguiling total transparency effect. Fitted with a new LED light assembly, providing light flush with the wall. It embellishes every setting with its extraordinary lighting effect, whereby each sphere reflects the image of the light source.
